Hi Emily,
I know you are working on creating an ad-hoc report with client's due date, the actual birth date as shown on the Birthing Outcome, and the discharge date, to help us know who is missing what forms and when they need to be discharged. After talking with my subcontractors, they also wondered if there could be a report that would show which clients have a monthly report each month (it can be one report with every month of the contract if that is easier) and what was marked on the reports (case management, housing, etc.) to ensure we are catching data entry errors during our internal review process.
Thanks for your help,
Kristen
